HIGH CLASS DOUGH FOR COUTING / HIGH CLASS FONDAN ZA OBLAGANJE

ENGLISH – Used for coating on all types of cakes and Fondan cake decorations.

Keeps its shape well after coating on cakes in high humidity (% 80) and heat (50 °C), no melting, non-sticky structure. No sweating while putting in or taking out of the fridge. Soft, smooth (silky) structure. Less sugar volume considering the sugar dough.

SHELF LIFE: 2 Years

DIRECTIONS FOR USE: Take the dough as much as desired, knead by hand heat and give shape. Application temperature should be 20-22°C. To keep the shape of the applied cakes, Marquette and figures, store it in refrigerators without fan at +6 °C.

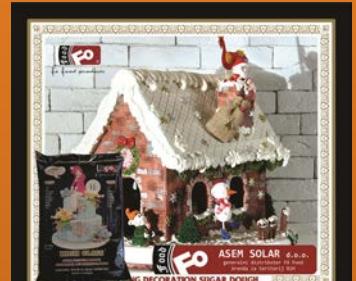

BOSANSKI - Koristi se za oblaganje svih vrsta torti i kolača te u izradi fondan dekorativnih ukrasa. Održava oblik dugo posle oblaganja torti na velikoj vlažnosti vazduha (80%) i topline (50 °C), bez topljenja i ljepljive strukture. Bez topljenja prilikom stavljanja i vađenja iz frižidera. Mekana, glatka (svilenkasta) struktura. Mali volume šećera s obicom da je šećerna pasta.

ROK TRAJANJA: 2 godine

UPUTSTVO ZA UPOTREBU: Uzmite šećerne paste koliko je potrebno, mjesite rukom te oblikujte po želji. Temperatura prilikom oblikovanja treba da bude 20-22 °C. Da biste održali željeni oblik torti, figurica i dekoracije čuvajte ga u frižideru bez ventilatora na temperaturi od +6 °C. Držite pakovanje dobro zatvoreno nakon otvaranja.

FO CHARLOTTE MIX / CHARLOTTE MIX

ENGLISH - Charlotte powder is used to make charlotte cake. May also be used for birthday cakes, truffle cakes, and for trifles, if desired.

SHELF LIFE: 2 Years

DIRECTIONS FOR USE: Mix 200g Fo charlotte powder with 250g water at 25 °C by using wire whisk until it fully dissolves. Add 1000g whipped cream (already prepared) into the mixture and stir well. Pour the mixture into round circle cake baking tray that has sponge cake layer in the bottom. Another sponge cake layer could be placed in the middle if desired. The cake should be refrigerated for a while before serving.

BOSANSKI – Koristi se za izradu Charlotte torti. Može se koristiti i za rođendanske torte, tartufne kolače i za slatke caše po želji.

ROK TRAJANJA: 2 Godine

UPUSTVO ZA UPOTREBU: Miješati 200gr Charlotte kreme u prahu sa 250gr vode na 25C koristeći mućkalicu dok se u potpunosti ne rastvori. Dodati 1kg pripremljenog šлага i dobro promiješati. Sipati smjesu u kalup na gotovu koru. Može se dodati još jedan sloj kore iznad po želji.

FO FIRST CLASS SUGAR DOUGH FOR COATING / PRVA KLASA FONDAN MASA ZA OBLAGANJE

ENGLISH - May be used for coating and decorative purposes on the cakes and decorative maquette cakes. Also may be used as a filling inside the chocolates. It has a flexible and silky structure that can be easily shaped. It is moisture resistant, extremely elastic, fast drying without cracking, less sugar, silky texture.

SHELF LIFE: 2 Years

DIRECTIONS FOR USE: The application temperature of the product is between 20-22°C. Dough must be knead and with the hand heat, can provide the elasticity to make shapes. After packaging is opened, the nylon bag should keep closed to protect from dryness.

BOSANSKI – Koristi se za oblaganje i dekoracije torti te takođe za dekorativne makete i figurice. Takođe može da se koristi za fill u čokoladi. Posjeduje vrlo elastičnu osobinu. Stvrdnjavanje je za vrlo kratko vrijeme te ga je vrlo lagano oblikovati. Otporna je na vlažnost vazduha, izuzetno elastična, bez pucanja sa manje šćera i svilenkastom teksturom.

ROK TRAJANJA: 2 godine

UPUTSTVO ZA UPOTREBU: Radna temperatura je 20-22C. Smjesa se mora mijesiti sa rukom da bih dostigla radnu toplinu nakon čega se lahko oblikuje. Držite pakovanje dobro zatvoreno zaštitnom folijom nakon otvaranja da bih spriječili isušavanje.
